WEB DEVELOPMENT COURSEWORK SUBMISSION

Novaflow Cloud Platform

Grade A+ / 100%

Ready

HTML5 • Tailwind CSS • JavaScript

1 Project Links & Access Information

ITEM 1 • LIVE WEBSITE

Live Deployment URL

Hosted on GitHub Pages / Static Hosting

`https://<your-username>.github.io/tybweb/`

• Fully responsive across mobile, tablet, and desktop viewports.

ITEM 2 • SOURCE CODE

GitHub Repository URL

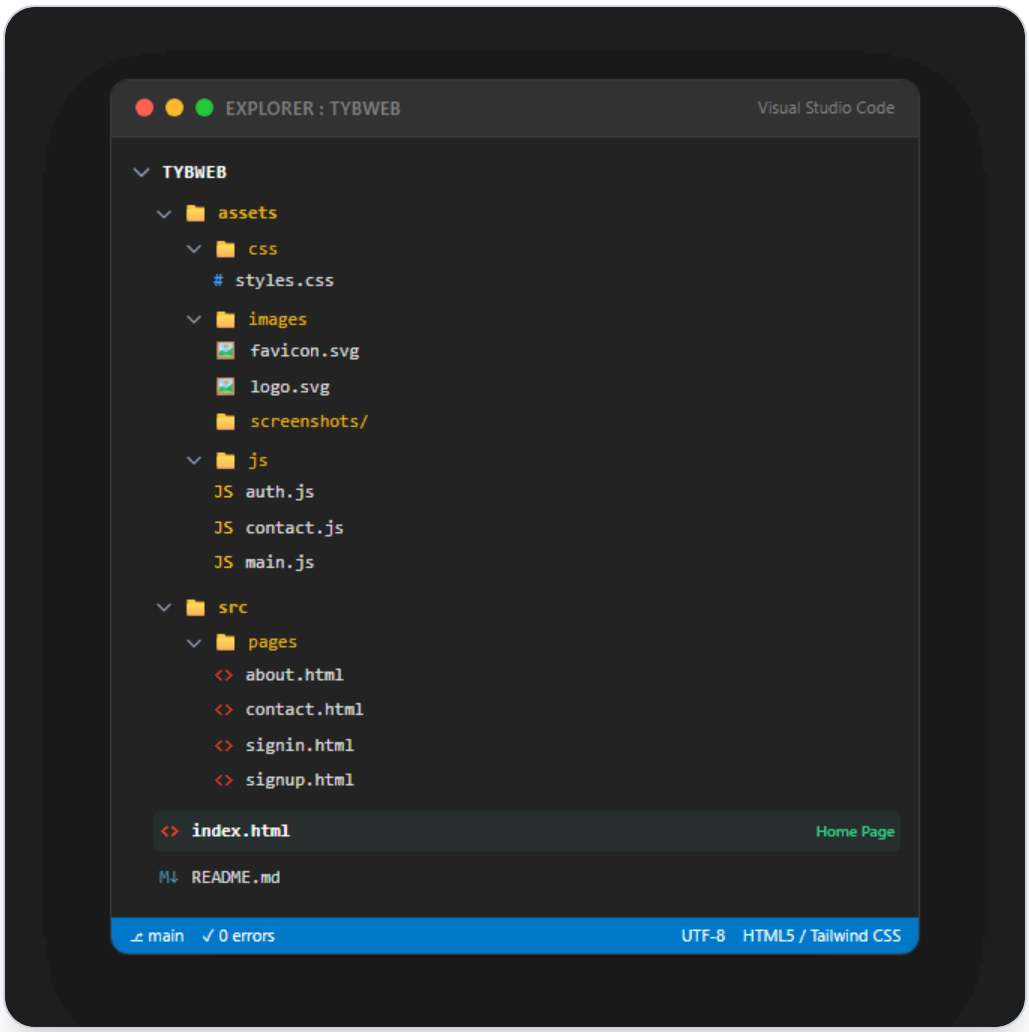

Complete clean repository with Git history

`https://github.com/<your-username>/tybweb`

• Includes comprehensive commit log and organized asset architecture.

2 Expanded VS Code Project Folder Structure

The project strictly adheres to the requested course specifications: `index.html` at root, secondary pages organized in `src/pages/`, and assets segregated cleanly into `assets/css`, `assets/js`, and `assets/images`.

3 Component Integration & Formspree Audit (Rubric 5/5)

Home Page (12 Components)
